Subject: Message from L.A. Liversidge - update re premium rate calculator & WSIB compass online services

Good afternoon,

We have recently been in contact with Board representatives who have confirmed that a premium rate calculator tool (which we have requested since before the commencement of the rate framework in January 2020) is now live on Compass. We are in the process of obtaining further details as to how the premium rate calculator tool works and will update you with information once we receive more information.

What we do know at this time is that this tool is only available to “larger employers”, however the Board has not defined what a “larger employer” is.

Compass is a secure log in for employers to access their specific claim and premium information as well as industry trends and health and safety information. If you have not already created a compass account you can do so by visiting the Board’s website to do so [here](#).

Once you log in you can access the compass user guide which will assist you in discovering the tools and information that is available, including how to access the premium rate calculator tool. For ease of reference we have attached a copy of the Compass user guide.

All the best,

LAL
