Mr. Don Blue Chief Actuary, Actuarial Services Division
Workplace Safety & Insurance Board
200 Front Street West
Toronto ON M5V 3J1

Dear Don:

Re: Rate Framework Starting Point Calculations

At the December 18, 2019 Rate Framework (“RF”) transition calculation meeting, in response to a question posed, you advised that the Board will recalculate the RF “starting point” “*if subsequent data details change*” (i.e., SIEF relief applied; claim denial; transfer of costs etc.).

I am writing to inquire as to whether or not a policy or administrative practice document has been or will be prepared to outline the process, circumstances and timeline for such recalculations. In addition, if you would also advise when any such documents will be available, it would be appreciated. As always, I appreciate your attention to this.

Best regards,

L.A. Liversidge
