1. Nature of operations

The Workplace Safety and Insurance Board (the “WSIB”) is a statutory corporation created by an Act of the Ontario Legislature in 1914 and domiciled in the Province of Ontario (the “Province”), Canada. As a board-governed trust agency, in accordance with the Agencies and Appointments Directive, the WSIB is responsible for administering the *Workplace Safety and Insurance Act, 1997* (Ontario) (the “WSIA”), which establishes a no-fault insurance scheme that provides benefits to people who experience workplace injuries or illnesses.

The WSIB promotes workplace health and safety in the Province and provides a workplace compensation system for Ontario based businesses and people with work-related injuries or illnesses. The WSIB is funded by business premiums and does not receive any government funding or assistance. 6. Fair value measurement and disclosures

Fair value hierarchy

The WSIB uses a fair value hierarchy to categorize the inputs used in valuation techniques to estimate the fair values of assets and liabilities.

The table below provides a general description of the valuation methods used for fair value measurements.

Hierarchy level	Valuation methods
Level 1	Fair value is based on unadjusted quoted market prices in active markets for identical assets or liabilities that the WSIB has the ability to access at the measurement date.
Level 2	Fair value is based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or model inputs that are either observable or can be corroborated by observable market data for the assets or liabilities.
Level 3	Fair value is measured using significant non-market observable inputs. These include valuations for assets and liabilities that are derived using information, some or all of which are not market-observable, including assumptions about risk.

Measurements of the fair value of an asset or liability may use multiple inputs that are categorized in different levels of the fair value hierarchy. In these cases, the asset or liability is classified in the hierarchy level of the lowest level input that is significant to the measurement.

16. Commitments and contingent liabilities

(a) Investment commitments

The WSIB's commitments for capital calls as at March 31, 2025 related to its investment portfolio were \$5,785. There is no specific timing requirement to fulfill these commitments during the investment period.

(b) Legislated obligations and funding commitments

Known commitments related to legislated obligations and funding commitments as at March 31, 2025 were approximately \$409 for the period from April 1, 2025 to March 31, 2026.

(c) Legal actions

The WSIB is engaged in various legal proceedings and claims that have arisen in the ordinary course of business, the outcome of which is subject to future resolution. Based on information currently known to the WSIB, management believes that adequate provisions have been made for cases where it is reasonably possible that a payment will be made and that the probable ultimate resolution of all existing legal proceedings and claims will not have a material effect on the WSIB's financial position.

17. Subsequent events

On Wednesday May 21, 2025, the Ontario Compensation Employees Union (OCEU) executives instructed their members to withdraw all services, starting a strike action that will continue until there is a negotiated agreement. WSIB management is currently assessing the financial impact of the labour disruption.

On July 1, 2025, Ontario's Bill 229 "Working for Workers Six Act, 2024" ("Bill 229") will come into force. It establishes presumptions for certain firefighters and fire investigators diagnosed with primary-site kidney cancer or primary-site colorectal cancer provided they had at least 10 years of service before being diagnosed. Bill 229 also specifies that under certain circumstances, the WSIB is required to cover the cost of claims for certain Schedule 2 employers. The WSIB is currently assessing the impact of these amendments on the consolidated financial statements.
